PREFACE

This third volume of the index to the 1840 federal census for the State of Illinois was taken from National Archives microfilm rolls M704-61 through M704-65.

As noted in the Preface to previous volumes, every effort was made to copy the names as accurately as possible but the spelling and penmanship of the various county enumerators ranged from very good to very bad. As a result there are, no doubt, some names that are incorrect. It would have been unwise to have attempted to correct the spelling as such an attempt might have compounded the error. It would have been equally unwise to have speculated on the intentions of the enumerators. In some instances a name could have been interpreted two or more ways. Therefore, anyone using this index is urged to check for all possible spellings of a name and to go by sound as well as spelling as many names probably were spelled as they sounded to the enumerator.

Several forms of "Senior" and "Junior" were used. In this index all are shown as "Sr." and "Jr." In most counties there was the common difficulty in distinguishing between "L" and "S", particularly since some enumerators were not consistant in the forming of either letter. Also, there was some difficulty in distinguishing between "I" and "J" unless the name was such that it could only be one or the other. Names with an "O" prefix were variously written (e.g. O'Brian, OBrian, Obrian). In this index all such names were copied as written. In several counties the abbreviation "Wid" or "Widw" was used. Obviously this meant "Widow".

There were peculiarities noted in several counties:

JO DAVIESS COUNTY - Much of the handwriting has faded so badly that it was not reproduced clearly on the microfilm. Some names were very difficult to read while others were impossible.

KNOX COUNTY - The left hand side of schedule sheet 43 appears to have been patched with tape, making some of the given names illegible on the microfilm.

LAWRENCE COUNTY - In addition to the common first name abbreviations (e.g. Jno., Thos., Saml, etc), this enumerator used a great many unusual ones. Some are easily interpreted but it is a moot question what some of the others mean. Anyone using this index should check out these abbreviated names if such abbreviations in any way resemble names for which they are searching.

LOGAN COUNTY - The handwriting on schedule sheets 235-238 has faded, making it difficult to read. This compiler cannot be certain some names were read correctly. Schedule sheet 248 was duplicated on the microfilm.

MACON COUNTY - Part of the lower left hand side of schedule sheets 2-4 appears to have been torn off, making it impossible to read the complete names of several individuals. As much of these names as it was possible to read was copied. Schedule sheet 3 was duplicated on the microfilm.

MACOUPIN COUNTY - The names of 14 common schools and 1 seminary were listed by this enumerator. Rather than scatter them alphabetically throughout this index, they have been alphabetized under the heading "Schools" on Page 67. Schedule sheet 61 was duplicated on the microfilm.

MADISON COUNTY - This enumerator was not consistant in forming the letter "S". In some instances, instead of the common resemblence to the letter "L", it looked more like a badly formed "J". There was no schedule sheet bearing the number 100, however, there were two sheets numbered 101. This must have been a matter of misnumbering because one is not a duplicate of the other. In this index the second sheet bearing the number 101 has been designated 101a.

MARION COUNTY - From this compiler's own knowledge several surnames were misspelled, however, they were copied as written by the enumerator. In this index the misspelled names are preceded by an asterisk with a notation at the bottom of the column as to the correct spelling. No doubt there are other misspelled surnames but unless the correct spelling was known definitely by this compiler no such notation was made. Schedule sheet 173 was duplicated on the microfilm.

In a number of instances throughout the counties in this volume the names were illegible, either wholly or partially. In other instances the enumerator had omitted either a given name or a surname. Wherever it was possible to do so such names were placed in their approximate alphabetical order within the index. A list of partial names that could not be alphabetized will be found at the end of the index.

The format of this index includes the head of the household followed by the county of residence and the census page number where the name was found. County abbreviations used in this volume are:

Jer - Jersey	Lee - Lee
Jod - Jo Daviess	Liv - Livingston
Joh - Johnson	Log - Logan
Kan - Kane	Mac - Macon
Knx - Knox	Map - Macoupin
Lak - Lake	Mad - Madison
Las - LaSalle	Mar - Marion
Law - Lawrence	Mas - Marshall

Alphabetically, the counties of Kankakee, Kendall, Mason and Massac would fall within the above group, however, they were not formed until 1853, 1841, 1841 and 1843 respectively. Anyone searching for persons who, in 1840, may have lived in the areas comprising these four present-day counties should check the parent county or counties (see map on page vi).

Information for each household not included in this index but available on the microfilm includes:

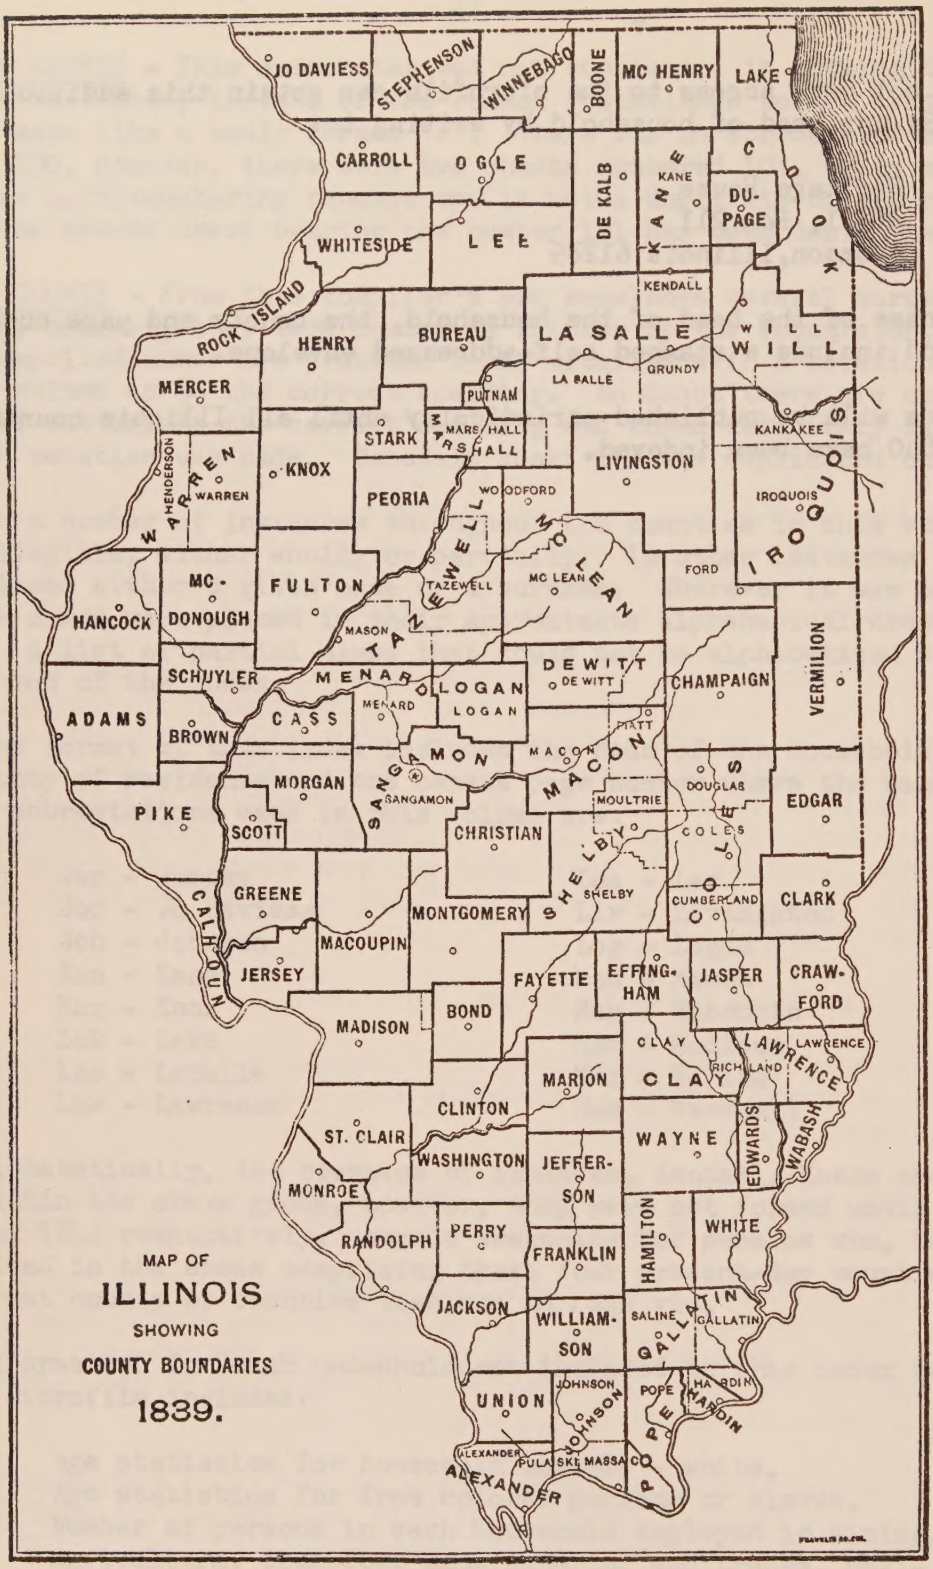
1) Age statistics for household members - white.
2) Age statistics for free colored persons or slaves.
3) Number of persons in each household employed in mining, agriculture, commerce, manufacturing and trades, navigation of oceans, canals, lakes and rivers, learned professions and engineers.
4) Pensioners for Revolutionary or military service and their ages.
5) Age statistics for deaf, dumb, blind or insane white persons and whether public or private charges.
6) Age statistics for deaf, dumb, blind or insane colored persons and whether public or private charges.
7) Information on persons attending school.

Those who do not have access to the microfilm can obtain this additional information for 25¢ per head of household by writing to:

Heritage House
Rt. 1, Box 211
Thomson, Illinois 61285

Please give name of the head of the household, the county and page number in your request and include a stamped self-addressed envelope.

Future volumes will be published periodically until all Illinois counties in existance in 1840 have been indexed.



No counties were formed during 1840. The above map is from Counties of Illinois, Their Origin and Evolution, Secretary of State's Office, Springfield, Illinois.
